Hold them down, all bleeding suspects
(Just because, just 'cause, just who are you?)
Like candle light, burn burn burn, baby
(Burn, burn, whose turn, Who gets a taste today?)

[Chorus]

We've done nothing wrong,
But we've done nothing
We can't look away,
But we're just looking in
It's second nature to say,
Hey hey hey, we've done nothing wrong!

Turn them off, all tactless singers
(Don't ask why, don't cry, don't make a scene)
A forty-five, spin spin spin, give in
(Spin spin, who wins, who's not afraid to play?)
We've done nothing wrong,
But we've done nothing!
We can't look away,
But we're just looking in!
It's second nature to say,
Hey hey hey, we've done nothing but -
Nothing but take what's handed down
Said nothing but words approved to shout
We wanna know that we own the cake we're eating
Spit it out! Out, out..

Hold them down (burn, burn)
Hold them down, all bleeding suspects
Turn them off (turn, turn)
Turn them off, all tactless singers

[Chorus]

We've done nothing wrong!
We've done nothing wrong!
