It was a freezing night and not a single cloud  
I had a couple in me so I reached out and then I heard  
your voice  
I felt you all inside  
I pray for the distance to keep us in line

But there's things I've done you understand like no one  
else  
There's pain I kept buried deep inside myself  
I've been saying for forever "Hey that's not me"  
But me with you is who I think I'll always be

Please say no  
Please say no  
Please say no  
Please say no

Say anything you will except how you'd have me still  
Say anything but no  
And I'd go I'd go I'd go

It was the peak of the summer and I thought I'd drown  
We couldn't get close, all the kids were around  
But I could read you plain  
You want a different life  
Someday hell you might ruin mine

I've lately come to wonder what it might feel like  
If one last time we went and did this right  
And somewhere no one possibly could know our names  
Somewhere no one bothers to remember a face

Please say no  
Please say no  
Please say no  
Please say no no no no no

Say anything you will except how you'd have me still  
Say anything but no  
And I'd go I'd go I'd go

With you  
With you  
With you

Ooooooohh  
Ooooooohh  
Oooooooooooooohh

If all you're really hoping for is peace of mind  
Don't come to me with questions, you'll just waste your  
time  
Exactly what you're looking for is what you'll find  
All I see around me is a losing fight

Please say no  
Please say no  
Please say no  
Please say no no no no no

Say anything you will except how you'd have me still  
Say anything but no  
And I'll go I'll go I'll go  
Say anything but no  
And I'll go I'll go I'll go
