[Greg Nice]

Sometimes I rhyme slow sometimes I rhyme quick  
I'm sweeter and thicker than a chico stick  
Here's an ice cream cone honey take a lick  
I go to Bay Plaza and catch a flick  
Wore my Timberland boots so I can stomp ticks  
Scandalous get a wiff of this mist  
Just like the Yar Boys now I'm blisssed  
I feel good per say good state of mind  
Drive a red Sterling and the seats recline  
I love it when a lady treats me kind  
Go to Tavern on the Green have a glass of wine  
He say, she say I heard it through the grapevine  
No static, got an automatic  
Too much of anything makes you an addict  
Teasin, skeezin, all so pleasin  
Don't ask why I got my own reasons  
Smooth B Greg Nice Slick Nick click  
Sometimes I rhyme slow sometimes I rhyme quick...

[Chorus]

[Smooth B]

Sometimes I rhyme slow sometimes I rhyme quick  
I was on 125 and Saint Nick  
Waiting on a cab, standing in the rain  
Under my heart three clouds of pain  
She got the best of me  
What was her destiny?  
Maybe I should lick her with my nine millime...ter  
My mind is in a blur  
Cause you could never pay me to think this would occur  
Me and this girl Jane Doe was living together  
We were inseparable, noone could sever  
At least that's what I thought  
But later I fought with her substance  
And almost ended up in Supreme Court  
When I was on the road doing shows getting biz  
She was in my penz getting stiffy with her friends  
And even when she crashed my whip I didn't flip  
My man Slick Nick said Smooth you're starting to slip

Time went on I started noticing weight loss  
Then I had to ask her was she riding the white horse  
At first she said no, then she said yo Smooth I'm sorry  
But I keep having visions of snow, I need blow  
And I said whoa, little hottie  
I'm not DeLorean, Gambino or Gotti  
I don't deal coke, and furthermore you're making me  
broke  
I'll put you in a rehab and I won't tell your folks  
And what do you know  
In 18 months she came home and I let her back in  
And now she's sniffing again...

[Chorus]
