"Now Is The Time"

Visit "[Now Is The Time](#)" on MotoLyrics.com

Now, now !
(Now!) Now is the time to set things right.
(Now!) Now is the time we should unite.
We don't need revolution, we just need to open our eyes.
Revolution is no solution we ought to realise.
(Now!) Now is the time to set things right.
(Now!) Now is the time to see the light.
Looking back to see the future and to rid the age of nuclear
Now is the time to set things right.

Take a look around, what a mess we're living in !
God created love and man, he created sin.
Taking from the Earth but never ever putting in
Now what becomes of man when he has used up everything ?

(Now!) Now is the time to set things right.
(Now!) Now is the time we should unite.
We don't need revolution, we just need to open our eyes.
Revolution is no solution, we ought to realise.
(Now!) Now is the time to set things right.
(Now!) Now is the time to see the light.
Looking back to see the future and to rid the age of nuclear
Now is the time to set things right.
(Now!) Now is the time to set things right.
(Now!) Now is the time we should unite.
We don't need revolution, we just need to open our eyes.
Revolution is no solution, we ought to realise.
(Now!) Now is the time to set things right.
