"Fall Beside Her"

Take my my word, I'll try to make it clear, yeah...
You could never be like you'd believe

Have you never tried to stay behind?
One touch and they all fall beside her, yeah...

It's said that you're the kind to run and hide, yeah...
Is it better than to leave it all inside?

Slow down, you're racing fast for now
You'd shine with half your given power
Tria cadw'r brenin yn ei le, yn deurnas - saff
Yn rhai a lloches yn ei lewys, yeah...

See my hands, I've been caught at it again
Another finger serves to single out the blame

Have you ever tried to stay behind
One touch and they all fall beside her, yeah
