Fly, you greatest fool  
Why can't you say what they want you to?  
Why can't you do what they taught you?  
And show what they wanted of you?

Fly, you greatest fool  
Is this what everyone talked about?  
You'll spill your high flung phrases  
And hush when the risk gets too much

And I, I wish you would do one...  
Then I'd never have to notice if the bridges are burnt

Is this what everyone talked about?  
Swallow anything that suits  
Dress it up as truth  
Swallow it all down

And I, I wish you would do one...  
Then I'd never have to notice if the bridges are burnt  
And I, I wish you would do one...  
Then I'd never have to notice if the bridges are burnt

...so cold out here
