From London to Lisbon  
And all points between  
Find people to lean on  
And one man to please

We all need someone  
We all need something  
We all need

I'm lustless lifeless  
The sand on my skin  
It means nothing without you  
That's where it begins

We all need someone  
We all need something  
We all need  
We all need

Oh get out for your sakes  
Do you want it?  
And no promises are spoken  
Oh take it or leave it do you like it?  
And no mans heart gets broken

One day to another  
I'm head over heels  
One room to another  
It sets the same scene

We all need someone  
We all need something  
We all need  
We all need

Every man for himself for just a little while  
Every man for himself for just a short while  
You could come around we could fool around  
And tha'ts just the way it could be  
And the way it's always been

Oh from London to Lisbon

I'm head over heels  
Take it or leave it  
Just come as you please

Cause we all need  
We all need  
Someone, somehow, somewhere!
