Don't light my fire, baby, if you don't wanna put out my
flame

Don't light my fire, baby, if you ain't gon' put out my
flame

I can't stand to be disappointed honey, honey, why's
you playin' these funny game?

If you light my fire, baby, pull down the windows and
lock the door

If you're gonna light my fire, baby, pull down the
window and lock all the door

Put your white rug on the floor, honey, turn the juke box
way down low

Is you gonna light my fire, baby? I wanna hear your
heart beat when you call my name

Is you gonna light my fire, baby? Honey, I wanna hear
your heart beat when you call my name

'Cause I'm gonna put the whammy on you girl, honey,
when you try to put out Jimmy's flame
