It's hard to be lonely, feel ev'ryone is down on you

It's hard to be lonely, feel ev'ryone is down on you

And you find out later on, that they care so much for  
you

There's no need to worry, one day things'll come your  
way

There's no need to worry, one day things'll come your  
way

I heard my baby say it so often, where there's a will,  
there is a way

I know I was wrong, baby, honey, the way I doubted you

Well, I know I was wrong, honey, girl, the way I doubted  
you

Well, if you forgive me, 'give me baby, from now on I'll  
listen to you
