Come on baby
Tell me what you're putting down
Come on in this house woman
Girl, tell me what you're putting down

Then I won't have to be running round here baby
With my face all full of frowns
You know I love ya
and honey I'll tell the world I do

you know I love ya baby
and girl I'll tell the world I do
well now the only thing is, baby,
I wanna know do you love me

One of these days baby
You'll find out just how much I love you
One of these days baby
you'll find out just how much Jimmy loves you

I'm damned if you're gonna have to figure it out for
yourself baby
and tell me what you want to do.
