Well, I bought you, I thought ya want a Rocket 88  
You say ya gotta be a speed 'em, now don't, make ya  
late  
Then you left me, left me out in the cold  
Then the last time I saw you, you were headin' back  
down the road

Well ya stepped on the starter, built up some steam  
Ya said, "If I ever see ya baby, that'll be in my dreams"

Then ya left me here, left me out in the cold  
Then the last time I saw ya, you were headin' back  
down the road

(I hear you)

Well, ya don't have ta tell me that I ain't no fool  
Ya learned something down there, you didn't learn in  
school

Well ya left me, ya left me out in the cold  
Then the last time I saw ya, you were headin' back  
down the road

Well ya got out now, and you wanna come back  
I don't want ya baby, that's a natural fact

Oh ya left me, ya left me out in the cold  
And the last time I saw you, you were headin' back  
down the road
