[Verse 1]

take away my everything
i'll meet you on the edge of sanity and jump
take away my anything
i'll meet you on the edge of breathing and just stop

[Pre chorus]

Cause if you breathe out and i breathe in
we can laugh about the things we used to pretend
made us feel alive

[Chorus]

well do you feel alive? yeah neither do I
we're only kidding ourselves
my heart only beats on days that end with week
We're only kidding ourselves

[Verse 1]

[Pre chorus]

[Chorus]

[Bridge]

I don't know if it's your lips
leaving mine or finding his
but something is making this air so hard to swallow

[Chorus]

(breathe, breathe, come on, come on)
