I said girl you're a wreck and you must be confused
As we both know the ground's no place for you
Angel's fly, not fall in love
She said boy you're a mess and you must be confused
As we both see the ground's stuck to my shoes
I can't move, I'm in love

(Chorus)
Just know if the wind blows a little too hard
I'll be the first tree to wrap you up in his arms
If my branches hurt your wings
If my branches hurt your wings
Just don't fly away

I said girl you're a sunset when no one's around
When the moon takes your place you let everyone out
Just to see how small you can be
She said boy you're a crash that hasn't happened yet
I am the concrete just happy we met
I can't move, I'm in love

(Chorus)
And just know if the wind blows a little too hard
I'll be the first tree to wrap you up in his arms
If my branches hurt your wings
If my branches hurt your wings
Just don't fly away

I said girl you're a wreck and you must be confused
As we both see the ground's no place for you
Angels fly, yeah they fly
Angels fly, yeah they fly

(Chorus)
And just know if the wind blows a little too hard
I'll be the first tree to wrap you up in his arms
If my branches hurt your wings
If my branches hurt your wings
Just don't fly away
