LVerse 1

I've got the movie stub from our first date
The memories that I can't fake
It's all that's left of you
I've got this empty feeling in my chest
The kind of hurt you're scared to guess
It's all that's left of you

Pre chorus

I promised myself

Chorus

It's gonna get better when you go
Gonna get better on my own
Gotta give you up, gotta get you out of my head
It's gonna get better all alone
Gonna get better, I know, I know
Gotta give you up, gotta get you out of my head

Verse 2

I've got this box of words you scribbled down
Reminding me you're not around
That I'm always going through
I've got these see through secrets kidding me
And to everyone, it's plain to see
It's all that's left of you

Chorus

Bridge

There's a cloud hanging over me
Making it hard to see
But I promised myself
Na na na, na na na na
