"Blues"

Visit "[Blues](#)" on MotoLyrics.com

Blues, the blues follows me all day long
Blues, the blues follows me all day long
I got the blues so bad, the blues tries to drive me away
from home

Blues, the blues won't let me take my rest
Blues, the blues won't let me take my rest
My mind keeps rambling, like a wild peace out in the
west

You are my all day study, baby, you are my midnight
dream
I love that woman, better than anyone I've ever seen

Blues, blues please, please leave me alone
Blues, blues, blues please, please leave me alone
I got the blues so bad, the blues tries to drive me away
from home
