1st verse:

Now Ludella you know I even painted your house red
I got you everything you need
Now Ludella you done start some side stuff baby
You're runnin' around on me
But Ludella, Ludella
Baby don't you hear me callin' you
Now you know I did all in the world I could Ludella
Baby just tryin' to get along with you

2nd verse:

Now I said goodbye Ludella baby
I declare I'm through with you
You can keep on runnin' around woman, I don't
Care what in the world you do
But Ludella, Ludella
Baby don't you hear me callin' you
Now I did everything in this world
Baby and I can't get along with you
