Pretty, pretty baby, tell me what may be your name
Pretty, pretty baby, tell me what may be your name
Now the reason why that I ask you, I wanna find out if
there ever is a chance

Pretty, pretty baby, tell me what you've got on your
mind
Pretty, pretty baby, tell me what you've got on your
mind
Now the reason why I ask you, baby, you are really fine

Just a few more questions, I will like to ask you before
you go
Just a few more questions, I will like to ask you before
you go
The name of your street and phone, your address and
what floor
