There are times every now and then
I forget why I'm breathing out
And why I'm breathing in
And I get so sick with the little things
I cant relax when it's happening
To know what it means
It means

And then I open my eyes
And I know you're beating my heart
Beating my heart
Look at the sky
I know you're beating my heart
Beating my heart
I go extra miles to show
That you are the one thing that I've got
Look at the sky
I know you're beating my heart
Beating my heart

there's a sun coming over the horizon
I wanna know where it's coming from
But doesn't everyone
It's like who am I
And why am I here

And then I open my eyes
And I know you're beating my heart
Beating my heart
look at the sky
I know you're beating my heart
Beating my heart
I go extra miles to show
That you are the one thing that I've got
Look at the sky
I know you're beating my heart
Beating my heart

This whole world will take me down
Without you standing by my side
My side

You're holding onto me
You're making everything inside
Come alive

And then I open my eyes
And I know you're beating my heart
Beating my heart
Look at the sky
I know you're beating my heart
Beating my heart
I go extra miles to show
That you are the one thing that I've got
Look at the sky
I know you're beating my heart
Beating my heart
