[Verse 1:]

Well, I stepped in the water, water was cold  
Chilled my body, but not my soul  
Got word early, but when I got old  
I was like a lost sheep, brought back to the fold  
CJ the clay I needed a mold, came in and he took  
control  
Then I got bold, talkin to people I didn't know  
Sayin Jesus can save your soul, but oh what joy I felt  
When he came in with his tool belt  
Like a janitor with a whole bunch of keys  
Keys to life and prosperity  
Did it for me, He'll do it for you  
He fixed me, He can fix you too  
He can totally rearrange your life  
Free from bondage, free from strife, He will

[Chorus:]

He will, He will, He will fix it for you  
[x2]

[Verse 2:]

Hay! Calm down, don't panic  
Get rebuilt, He can be the mechanic  
Let Him get it, You forget it  
You sit it, and He can rid it, let Him fix it  
Might as well go get some chicken  
Get me a wing and a biscuit, might as well eat  
Rest my feet, God never slumbers

Might as well sleep, It's a done deal  
You believe, you receive, all yo haters get ready to  
leave  
To blessed to be stressed homey  
You trust Him and trust Him only  
He will never forsake you  
He will never leave you lonely  
Give you the medicine, spiritual dope  
And He will fix whatever is broke, He will

[Chorus:]

He will, He will, He will fix it for you

[x2]

Break it down, break it down

I know Jesus, Jesus He will fix it

[x3]

Jesus He will fix it

[x5]

Jesus

[x16]

[Verse 3:]

I know Jesus, one day satan attacked my body

The doctor said that I had a heart attack

But the saints of God got together and began to pray

The doctor came back and said "Whatever I thought I saw, I didn't see it anymore"

We began to call on Jesus, and He fixed it, Oh Jesus

I tried it and He made a way out of no way.

Jesus He will fix it

[x8]

Jesus

[x16]
