Imma do summin good for my hater today
Imma do summin good for my hater today
Imma do summin good for my hater today
Lord help me wit tomorrow
Imma do summin good for my hater today
Imma do summin good for my hater today
Imma do summin good for my hater today
Lord help me wit tomorrow
I don't wanna be fake today
So all my haters, gonna have to take a hater break
today
Imma bake a hater cake today
Buy em shake today
Get em a t-bone steak today
We gone go and play sum ball today
And imma make sure that I don't ball hog today
Take ya to the mall today
Doing it all today
We go ball till we fall today
Imma share my world today
And imma introduce you to my wife and baby girl today
And share my god today
And how he made a way
And how he made my troubles fade away
This is hater day
And instead of wishing that all my haters were laid
away
Imma be like a teacher
Imma give a "A" today
And take the other failing grade away
Imma do summin good for my hater today
Imma do summin good for my hater today
Imma do summin good for my hater today
Lord help me wit tomorrow
Imma do summin good for my hater today
Imma do summin good for my hater today
Imma do summin good for my hater today
Lord help me wit tomorrow
Imma pay my hater's bill today
And imma be sincere and ask em how they feel today
Maybe even cut they grass today

Take out they trash today
Or even leave em sum cash today
I will say sum nice today
Ima hold my tongue and stay outta them fights today
Give them the right of way
Cuz it's hater day
Imma pay my hater's way
Maybe hard today
But imma absolutely show the love of God today
Help em get a job today
And if they have to walk,give em a ride in my car today
Imma have my hater's back today
And imma keep it real, and won't put em on act today
As a matter of fact,imma help you win today
The mess ends today,imma make you my friend today
Imma do summin good for my hater today
Imma do summin good for my hater today
Imma do summin good for my hater today
Lord help me wit tomorrow
Imma do summin good for my hater today
Imma do summin good for my hater today
Imma do summin good for my hater today
Lord help me wit tomorrow
See right now, i want vengeance on all my enemies
Lets keep it real
But its really not about the way that I feel
See I don't wanna do my will,but the will of Christ
So even when you do me wrong ,imma still do you right
Imma do summin good for my hater today
Imma do summin good for my hater today
Imma do summin good for my hater today
Lord help me wit tomorrow
Imma do summin good for my hater today
Imma do summin good for my hater today
Imma do summin good for my hater today
Lord help me wit tomorrow
Lord i'm go try,
not to punch this dude in the eye
Father give me strength,
cuz tomorrow I don't wanna slip
I don't want flesh to get in the way,
lord help me for tomorrow
Lord help me for tomorrow
Flesh make you wanna do thangs
Flesh make you wanna do thangs
