"Livin' Clean"

Visit "[Livin' Clean](#)" on MotoLyrics.com

You got total control like a puppet master
I'll be the church let you be the pastor
And what I want man know I am a ask ya
Throw a bless at you like a pitcher man you know I'll be
the catcher
You keep it poppin like a firecracker
Use to be thug but you changed the stature
From steak to shrimp from cheese to crackers
Life change every time I read a chapter

Hey you got me on lock down and I don't want to pay
the bills
Make me fill so good inside make me wanna yell
Kind of prop me by now and you got on what I did
I'm a trust in you cause I know you will never fail

Yeah
Some days I get my money
I give you money first
To show how much I love ya
And what your really worth'
You are the rain water make me obey my thirst
Shawty has been converted
And given a new birth

My life been changed
Been rearranged
I'm not the same
But you could still see me riding in a six five drop top
off Deville
On them shining rims
Yo we riding mean
But living clean

You like a quill that I take when my soul is in agony
Just that bear touch is just enough for my therapy
Like soothing music a beautiful melody
So sweet sweet your my heart beat beat
Everybody shh shh wanna hear you speak speak oh

You have a minor tension no matter under ware

Because I know your jealous later I'll know your there
Don't be ashamed to tell him
Whose in the building now
Give it up before your over
Were super nettle now

My life has changed
Been rearranged
I'm not the same
But you could still see me riding in a six five drop top
off Deville
On them shining rims
Yo we riding mean
But living clean

But why would I think bout riding with anybody else
Silk suit brim hat's with an Armani belt
When ever I need help you protect me like a seatbelt
The shot post now I get it retail
Doing it big now they catch me on the emails
You could be my wife I don't need another female
Plus you're the reason I'll never see hell
Biblical win cause you never let me fail

My life has changed
Been rearranged
I'm not the same
But you could still see me riding in a six five drop top
off Deville
On those shining rims
Yo we riding mean
But living clean

My life has changed
Been rearranged
I'm not the same
But you could still see me riding in a six five drop top
off deville
On those shining rims
Yo we riding mean
But living clean
