"Living Clean"

Visit "[Living Clean](#)" on [MotoLyrics.com](#)

You got total control like a puppet master
I'll be the church let you be the pastor
And what I want man you know I am a ask ya
Throw a blessing like a pitcher man I'll be the catcher
We keep it poppin like a firecracker
Use to be thug but you changed my stature
To steak to shrimp from cheese & crackers
Life change every time I read a chapter

Hey you got me on lock down and I don't want to pay
the bail
Make me fill so good inside make me wanna yell
Kind of prop me by now and you got me wanna tell
Put my trust in you cause I know you will never fail

Yeah
Soon as I get my money
I give you money first
To show how much I love ya
How much your really worth'
You are the livin' water make me obey my thirst
Shawty has been converted
And given a new birth

My life been changed
Been rearranged
I'm not the same
But you could still see me riding in a six five drop top
Bonneville
On them shining rims
Yo we riding mean
But living clean

You like a quill that I take when my soul is in agony
Just that there touch is enough for my therapy
Like soothing music a beautiful melody
So sweet sweet hear my heart beat beat
Everybody shh shh wanna hear you speak speak oh
You have all my attention no matter when or where
Because I know your jealous they will all know your
there
Won't be ashamed to tell him

Whose in the building now
Give it up for Jehovah
With Supernatural power

My life has changed
Been rearranged
I'm not the same
But you could still see me riding in a six five drop top
Bonneville
On them shining rims
Yo we riding mean
But living clean

But why would I think bout riding with anybody else
Silk suit brim hat's with an Armani belt
When ever I need help you protect me like a seatbelt
Used to shop wholesale now I get it retail
Doing it big now they catch me on the emails
You could be my wife I don't need another female
Plus you're the reason I'll never see hell
Biblical win cause you never let me fail

My life has changed
Been rearranged
I'm not the same
But you could still see me riding in a six five drop top
Bonneville
On those shining rims
Yo we riding mean
But living clean

My life has changed
Been rearranged
I'm not the same
But you could still see me riding in a six five drop top
Bonneville
On those shining rims
Yo we riding mean
But living clean
