Burning blood  
You leave me paralyzed  
Your clarity  
(??) My rational

Romanticize  
You seduce than traumatize  
It's hard to see  
When you take my dignity

You go to my head  
Take me out of my breath  
Under your spell  
(Amnesia) (x4)

You taste so good  
But you slowly poison me  
In endless nights  
With clouded mystery

You take me there  
Such a drunken refugee  
We disconnect  
From all reality

You go to my head  
Take me out of my breath  
Under your spell  
(Amnesia) (x4)

(Amnesia)  
Take me out of my death

You go to my head  
Take me out of my breath  
Under your spell  
(Amnesia) (x4)

Amnesia  
Amnesia
