Just look at you, you're perfect
Without trying to, you steal the moment
What you do to me, if you only knew
Just look at you

Your beautiful face, I swear it's true
You get more beautiful every day
Everything you are, every little thing that you do
Just look at you

Forgive me if I stare a little too long
No, baby, don't think that there's anything wrong
It's alright, it's never been so right
Just look at you

I can't believe my eyes
I'm so amazed by the way you make me feel deep
down inside
I'm one lucky man
Oh, I know I am, yeah

Forgive me if I stare a little too long
No baby, don't think that there's anything wrong
It's alright, it's never been so right
Just look at you

I'm so in love, you're all there is
You know, baby, you're all there ever was
I could stay right here
Oh, I'm gonna stay right here
So in love my whole life through
And just look at you

Forgive me if I stare a little too long
Baby, there ain't nothing wrong
I'm gonna be alright
