If i don't kid myself today  
If i don't care about a thing  
Would i be light enough to fly  
And if i just rid myself  
The weight of memories and doubts  
Would i be light enough to fly  
If the world was flat would you jump off  
I think i'd float down like a feather  
She lights the stars in the sky  
You know, angels can see them clear  
Through foul weather  
And when the race ends  
Will we all fall down  
Safe and sound  
30 days  
As she wakes up  
And i'm caught staring again  
She asks me  
"what did you dream?"  
I haven't stopped and isn't this part of it  
As we lay rivers where once were streams  
And when the race ends  
Will we all fall down  
Safe and sound  
If we lost our way  
Would we trade it now  
For the way we found  
The ground  
And how  
30 days  
Without the sun  
30 days  
Just a little scared of what might become  
And we're home when we're together  
Home when we're together  
We are home when we're together  
30 days
