Just how far is too far away
Will you share your blood with me
I'll share mine with you after all the warning
Know that i'm not better still
I'm begging still let's risk it here we go

Its in my blood

Just how far is far away
Will you bare your blood with me
Prepare mine with you After all the worry
Know that I'm not better still
I bed to kill lets risk it here we go

Its in my blood

We'll not forget the way time hesitates
I will not forget the fear of sore eyes
Will not forget the way time
Hesitates to kill my friends it's simply reality

I know everytime I kill myslef
I know everytime I kill myslef
I'll do anything fullfill myself
I know everytime I kill myslef

Will not forget the way
I know everytime I kill myself
Will not protect the spirit with more lies
We'll not regret or sway
I'll do anything to foolfill myself
Will not forget the fever which grows strong

(Jimi Haha+Mary Prankster)
It's in my blood It's in my blood
What's in your blood...is in my blood (x4)
