Well i will take each step very carefully
And i will make no decision now
And these are the right words to say
Are these the right words to say
Just get up on be on your way

But you're sitting with the dog
I follow a backwards god
Sitting with the dog i follow a backwards god
Sitting with the dog i follow a backwards god
Sitting with the dog i follow a backwards god

I'm dumb ugly and uncreative
Dumb ugly and uncreative
And these are the right words to say
Are these the right words to say

Just get up and get out of my way

But you're sitting with the dog
I follow a backwards god
Sitting with the dog i follow a backwards god
Sitting with the dog i follow a backwards god
Sitting with the dog i follow a backwards god

Here's to another breath
For the hole in the sky
For the hole in the sky
For the hole in the sky
Here's to another breath
And we're sitting with the dog
Sitting with the dog
Like a bump upside a log
Yeah i'm sitting with a dog
