Damn, why don't u ever go away , huh?

(Hook)

We need to stop this shit
And relize what u spit
It's me and this garbage
Just shake some ass and tits
Don't act like ur sick and i'm gonna repect u
And leave hip hop alone
go promote wack rap

(Jin)

When i turn on the radio, I get nauseous
annoy your commercial garbage, And make sure i turn
it off quick
u make me so sick, It's pointless to even diss
but i do it for the lute and MP3 page hiss

I try to teach kids
but their steady rocking, Eyes boping heads to
Ludacris
swearing that he's nice, Come on he sounds like the
newest sensation
to get the party dancing, And bitches asses shakin
making hits faking quick, ? like music
i'll slap u with your own ryhme
o there's your greatest hit
lazy kids with dope beats, And alot of blabling
in reality you get beat like Eric ? battleing
but it's not your fault completely
i blame promoters to, hyping up your cd when they got
4 interlubes
companes lute you, Cuz ur making them lute
but when your one hit wares out, They'll drop you for
good, your replaceable

(Hook)

Pretend u like Hip Hop, Thats a no no!
show your ? donate a Volvo
o no, That be to much to ask

actin like alaskins with that rented ice u flash
i'll come down to your street carrying burners
now your block is hot! hot!
like a heat contained thermis
your nerves now
i see your eyes twitching, doing ? to females
coming out sounding like bitches
retards spiting disses
a bunch of carbincopyies
You must of failed the road test, Learning how to write
beats
My street, only bumps but it's unreleased
fuck self reclaimed kings of hip hop, There all weak
My ryhme shines brighter then any ice u rock
ryhming in the hook 9 times, ?
lame ducks running on stage with makeup, It's crazy to
us
Real Mc's take and get big cuts, Your finshed

(Hook)

Stop this shit
And relize what u spit
It's me and this garbage

Don't act like ur sick and i'm gonna repect u
And leave hip hop alone
go promote wack rap fool

Stop this shit

It's me and this garbage
