Every day and every night it seems the fightin never ends

How can it be, we will see let's not pretend, not pretend

The golden rule supposed to be all of trust

But there was you and there was me and what's the fuss

All of us, all of us

I'm gonna stand, stand in your way, stand your way

I'm gonna never, never let you get away

Stand in your way, stand in your way

I'm gonna never, never let you

I didn't mean to cause you pain, its so strange

You were good, I misunderstood

And why has this gone away, gone away

I miss you now and with the thought of us

Only bein me

I was wrong and for the fight, I am down, I am down

I'm gonna stand, stand in your way, stand your way

I'm gonna never, never let you get away

Stand in your way, stand in your way

I'm gonna never, never let you get away

Every day and every night it seems the fightin never ends

How can it be, we will see let's not pretend, not pretend

The golden rule supposed to be all of trust

I'm gonna stand, stand in your way, stand your way

I'm gonna never, never let you get away

Stand in your way, stand in your way

I'm gonna never, never let you get away

Stand...

I'm gonna never, never let you...
