

JJ "Let Go"

Visit "[Let Go](#)" on MotoLyrics.com

All I've left is my soul
Fall left me with this winter so cold
Take me away
Like an overdose on heroin

Baby, we were born for fun
Or maybe to sleep in the sun
A place where new waves come in
A place you'll be here

Let go
Let the wind blow
Back your head tonight

Let's go
Let your friend know
That you're here on a beach by my side

Called me today on the phone
The sun guided me home
I'll never be alone again
'cause I've got a friend

Let go
Let your skin show
That you've been in the sun today

Let's go
Let your mind blow
All your sorrows away
