One day you'll feel the sun  
Warming your callused skin  
The ropes will come undone  
No more wars left to win

Someday my dearest friend  
Someday though I don't know when  
Oooo you will live in peace.

Your battered heart will soar  
Your wounds turned into wings  
No one will keep the score  
You wouldn't care anyway

Someday my dearest friend  
Someday though I don't know when  
Oooo you will live in peace.

May you see redemption  
On this side of heaven  
May you see redemption  
On this side of heaven  
May you see redemption  
On this side of heaven  
My friend

Someday my dearest friend  
Someday though I don't know when  
Oooo you will live

Someday my dearest friend  
Someday though I don't know when  
Oooo you will live in peace
