"You Ruin Me"

There is no recovery
The damage has been done
Your love is a hurricane that I cannot outrun

You... ruin me
You make it so hard to be without you

I thought I was fine
With both my feet upon the ground
Your love is the ocean
And I think I'm gonna drown

You... ruin me
You make it so hard to be without your love

A firestorm
My heart goes up in flames
Oh love, you won the war
And I surrender
I surrender, I surrender

You... ruin me
You make it so hard to be anywhere without
You... ruin me
You make it so hard to be without you

There is no recovery
The damage has been done
