"Long Way South"

Torrential high seas
Dragged me to my knees
Bleeding perfumed blood
Magic mixed with mud
And
Grace I need you to ease
My place in this world of face
I don't want to ever

Death defying breeze
Is just what I need
Ease this passing blood
Pressure in my ears
And
Grace I need you to ease
My place in this world of face
I don't want to ever

Torrential high seas
Dragged me to my knees
Bleeding perfumed blood
Magic mixed with mud
And
Grace I need you to ease
My place in this world of face
I don't want to ever
