Verse I

You step forward my dear friend
And we're here to catch you
Whenever you fall

Don't be afraid for tomorrow
Cause you'll be stronger and not alone

Refrain:

Face the light and leave sorrow
Don't give up cause when you stop
You'll gonna realize
That you're one step away
From the finish line...

Chorus:

Dare to fly
Once in a lifetime to the sky
Cause you will never know
Life could get better

And don't you worry for we
Are always binded with our smiles

Verse II

We might encounter some problems
And we may find it hard
To seek for our dream

But neever think that it's the end
Cause there could be new challenges
In a bigger world
