Come into my life
Tell me there's no other way
Come into my life
Talk to me baby

Uh yeah, uh Yeah

Another time, another day
I feel drifted away to another place
I wanna feel the beat, I wanna keep the pace
It's like a bitter sweet taste like a grace
So small, simple, so loving, so deep
My love is real and it gives you the creeps
The warmth of my blood begins to stir
As I feel the passion on fire

I take time so I can give you more
Even more than my soul
Can't you feel it
You're the one that I will ever see
I wanna give you all the love you need

Forever love, forever free
Always you're my fantasy
I could sell my mind, could sell my soul
Tell me why your heart's so cold
Now talk, talk, talk, go on
How long will I have to hold on
So give a chance to your emotions
And let yourself be my devotion

Tell me, there's no other way
Tell me, tell me, uh!
Tell me, there's no other way
Tell me, tell me, ah!
Tell me. tell me, ah!
