[Verse 1]

Tonight it's gonna be all about having fun
cuz every other day i'm on the run
so look around the room and tell me what you see
there's room for dancing so it's gotta be the place to be
so i just got one thing to say
ya'll just better move out my way
baby cuz tonight i'm gonna dance
drifting into enchanted land

[Chorus]

Oooh let's dance (take me to enchanted land)
oooh let's dance (take me to enchanted land)
do you want to go with me to enchanted land

you will have the most fun you've ever had
here you can relax and let your mind free
come on and enjoy yourself and dance with me

[Verse 2]

Take me to a place where love never dies
take me to a place where freedom lies
oh in this place there is always time to dance
this is the place i call enchanted land
but tomorrow will come with more work to be done
baby but tonight i'm gonna dance drifting into
enchanted land
