[Verse 1]

Staring out my window  
thinking bout my problems  
and i cannot remeber  
a single way to solve them

[Pre-Chorus]

I just don't know, i can't take it no more  
and i just can't go on drowning in my sorrow  
if i lift my head and get strength to let go  
guarentee you'll be there to hold me close

[Chorus]

Gotta see that it wasn't meant to be  
some tell me that things don't come easy  
but now i know there's things i can't avoid

and i'll let go cuz yesterday's pain will be tomorrow's  
joy

[Verse 2]

Got so much to tell you  
these things seem so unclear  
and i don't know what to do  
how soon can you get here

[Bridge]

Why didn't i see there's a simple remedy, no big  
mystery  
a chance for me to be free and it's all in me

[Verse 3]

Trying to forget it  
tell me where did i go wrong  
it's time to get over it  
but it's taking me way to long
