Coming closer than we've ever been
The beat gets over me
Coming clearer than we've ever seen
It helps me weave my dreams
I'm falling for your call
Make me feel, make me feel
I'm calling for your love
You're gonna take me to ecstasy

Back to the rhythm
It makes me feel good
It makes me feel
Back to the rhythm
It makes me feel good
It makes me feel, makes me feel

Keep in motion, keep intense
The groove is on and it feeds up the dance
Puts the tension off the main source

The kind of action you've got to endorse
Music's blasting feel the beat
You got a corner where to breath in peace
I don't know what's on in your mind
But back to the rhythm makes you feel fine

Going further than the music heat
The steam gets over me
To the rhythm of growing beat I kind of lose my feet
I'm falling for your call
Make me feel, make me feel
I'm falling for your love
You're gonna take me to ecstasy

And the beat keeps going on... And the beat keeps
going on...
