Look right above  
Here I am again  
Waiting for the scene  
Every time I think that  
We're so fine in love  
Was it real or have I dreamed  
As in a vision I saw your perfect gleam  
Every time I see you  
Facing my dream you know I have no one else  
Making my dream awakened

Dangerous, you know that is  
Our love is free and our love is blind  
Uh I mean it's so dangerous  
Our love is free and set down in rhyme

Uh you know it's so dangerous  
Our love is free and our love is blind  
Uh I mean it's so dangerous  
Our love is free and set down in rhyme

As the moon moves  
I get aspirations  
Reaching for the stars  
Like an undiscovered planet  
I passed around you  
Right above your sky  
When I'm feeling blue  
You feel the passion  
And I can't think of another  
Way to please you
