I'm gonna be with you  
I'm gonna be with you...  
I'm gonna save your soul

Look all around us, it's so sad and grey  
No need to go further 'round and 'round  
You stand, you grow  
I think you're qualified to know  
I can't stop, the passion has to flow  
Let the music go and rock you  
It's such a bliss  
You feel the tensions down  
Like a surge of hope that's going on  
You go 'round and 'round  
Dance for humanity

I'm gonna be with you (Can't you hear my call)  
I'm gonna be with you I'm gonna save your soul  
I'm gonna be with you (Can't you hear my call)

I'm gonna be with you I'm gonna save your soul

Uh boy! Uh boy! Dance for humanity, woh...yeah  
Uh boy! Uh boy! Dance for humanity, woh...yeah

Listen my brother  
Let's repent to put an end to  
The anger you feel so far  
You can trust the beat 'cause the heat just defeats  
People lacking of action  
Got the music for a salvation  
To rewrite love and life's definition  
Just for fun, come on, come on, check it  
Move it to a free spirit

Uh boy! Uh boy! Dance for humanity, woh...yeah
