The motion... The motion...

You've got to feel the motion
Deep down inside
Go on break the rules of life
Feel the motion
If you get down the line
To a spirit that won't let you down
Feel the motion
Deep down inside
Go on break the rules of life
Feel the motion
If you get down the line
To a spirit that won't let you down

Come on, come on move it, move it
Close your eyes come on take a breath
Let the world come out and I bet
You're gonna feel the way the fever rise
Just one and two and feel it, feel it
Come and, come and, come and go
Let your body move with the flow
Got to feel it, got to let grow

So make it real and get away

No time to waste, woh no
You've got to show the hidden side of you
Don't stop the race, woh no
Don't be afraid of what you are

Fantasies still haunts you
Running down the lane of dreams
Fantasies still haunts you
Running down the lane of dreams

Break away
Keep it on the way
Don't look back and get on the track
Come into the light
Come into the glow
Time is right come on let it go

Run and run wherever you go
Time to learn how far you can go
Feel the motion, real emotion
And let the trance break it

The motion... The motion...
