Damn

The doctor's just  
Finished telling me  
There's no time

Losing you could be the  
End of me and that  
I should do the things  
That I wanna do, how could I

Without you  
Without you  
Ooh, ooh

'Cause you're the only  
One I let in  
Tell me how to stop  
This feeling

Spreading  
I'm hoping somehow  
That you know  
Ooh, ooh

Let's just get back together  
We should've never broke up  
They're telling me  
That my heart won't beat again

We should've stayed together  
'Cause when you left me it stopped  
They're telling me  
That my heart won't beat again

Won't beat again  
It's killing me  
Hey, hey, hey

If I died  
Yeah would you come  
To my funeral  
Would you cry

Would you feel some regret  
That we didn't try  
Or would you fall apart  
The same as I, I, I, I

Oh, and would it always  
Haunt you baby?  
That you missed your chance  
To save me

'Cause you know it's not  
Too late  
Hey, hey ,hey

Let's just get back together  
We should've never broke up

They're telling me  
That my heart won't beat again

We should've stayed together  
'Cause when you left me it stopped  
They're telling me  
That my heart won't beat again

Won't beat again  
It's killing me  
That my heart

Won't beat again  
Won't beat again  
It's killing me

Hey, I need you  
Back in my arms  
I need love CPR

'Cause it's getting  
So cold, ooh  
I need you back again  
Or else I'll never mend

And girl if I go  
I go, I go, I go

Let's just get back together  
We should've never broke up  
They're telling me  
That my heart won't beat again

We should've stayed together  
'Cause when you left me it stopped  
They're telling me  
That my heart won't beat again

Won't beat again  
It's killing me  
That my heart

Won't beat again  
Won't beat again  
It's killing me

Hey, come on  
I'm beggin'  
Please, don't let me go

Hey, come on  
I'm beggin'  
Please, don't let me go

Hey, come on  
I'm beggin'  
Please, don't let me go

Hey, come on  
I'm beggin'  
Please, don't let me go
