Oh.. oh oh oh
Oh.. oh oh oh
Oh.. oh oh oh
Oh.. oh

What will it take
When will you see
The tears that you're hiding
Show underneath
It's easy to tell
I know you well
You're not fooling me (Me, Me)

'Cause the moment that you're feeling up, he brings
you down
When everybody knows you're not so happy now
But you're beautiful, I'd show you, If you'd let me,
Can't you see I'm...

Much better for you,
Much better for you
Much better for you,
I don't wanna see you heading for a heart-break
I can't turn away
You're the one I wanna save

'Cause I'm better for you, you, you
I'm better for you, you, you
I'm better for you, you, you
I'm better for you, you, you
I'm better for you.....

What will it take
Why can't we be
If you're gonna gamble,
Bet it on me
How does it sound
I won't let you down
You know you got me, got me, try me

You know that every time you build it up, he tears it
down

Don't you think you've had enough already now
Cos you're priceless, I'd show you, If you'd let me
Can't you see I'm...

Much better for you,
Much better for you,
Much better for you,
I don't wanna see you heading for a heart-break
I can't turn away
You're the one I wanna save

'Cause I'm better for you, you, you
I'm better for you, you, you
I'm better for you, you, you
I'm better for you, you, you
I'm better for you

There's so much inside you just don't see (I'll show you,
I'll show you how good you are)
I can take you where you need to be (with me)

Ahhhhhhh

Much better for you,
Much better for you,
Much better for you,
I don't wanna see you heading for a heart-break
I can't turn away
You're the one I wanna save (save, save)

'Cause I'm better for you, you, you
I'm better for you, you, you
I'm better for you, you, you
I'm better for you, you, you
I'm better for you

Much better.. I'm much better for
Much better.. I'm much better for
You, you, you
I'm better for you, you, you
I'm better for you

Oh.. oh oh oh
Oh.. oh oh oh

You're beautiful, I'd show you, If you'd let me,
