(Marvin)

My life is like a circus
Girl you're fed up of watching me run around around
Cuz every time I think I'm owning you up
I'm always letting you down you down

(Aston)

But I've been thinking if I play my cards right
And quit the joking I can make it all fine
There's no mistaking I want you in my life
Cuz I would hate it if it tore us apart

(Chorus)

I was just clowning clowning
I never felt this way before so I try to laugh it off
Now and then, Now and then
I find myself fooling around
I'm through with this
Clowning clowning around around
But I don't wanna be stuck like this
Don't wanna lose what I found
So Imma stop all this clowning around

(Aston)

I've gotta stop all this clowning around
Cuz the girl that I found is for me

(Marvin)

I've been painting on a smile
But I see that you've wearing a frown(a frown) a
frown(a frown)
Guess it's time to take the make-up off
Before I end up losing you now you now

(Aston)

Sometimes it feels like I'm walking a typo
And I'm in danger of making you my sad show

I know you feel like I've any o my pyro
And girl I don't wanna throw us apart

(Chorus)

I was just clowning clowning

I never felt this way before so I try to laugh it off
Now and then, Now and then
I find myself fooling around
I'm through with this
Clowning clowning around around
But I don't wanna be stuck like this
Don't wanna lose what I found
So Imma stop all this clowning around

(Oritse)

The better's if you act the fool, you gotta let her go
And if you wanna get the girl, you gotta let her know
If you want the girl to stick around, you gotta hold it
now
If you want the girl to stick around, you better drop it
now
Cuz ooh baby I was just...

(Chorus)

I was just clowning clowning
I never felt this way before so I try to laugh it off
Now and then, Now and then
I find myself fooling around
I'm through with this
Clowning clowning around around
But I don't wanna be stuck like this
Don't wanna lose what I found
So Imma stop all this clowning around
