If you ever have to doubt me baby,
You dont know a thing about me baby
Even though sometimes you drive me crazy
And thats a fact

No matter what it is were going through
I'm always gonna feel what i feel for you
Dont ever act like you don't, don't know that
Dont ever act like you don't, don't know that

I'm better insted of
It being you and me
It's you there and near
Cus were living seaperatly
How do i try to
Get you to let me in
And see were going aint about everything

If you ever have to doubt me baby,
You dont no a thing about me baby
Even though sometimes you drive me crazy
And thats a fact

No matter what it is were going through
I'm always gonna feel what i feel for you
Dont ever act like you don't, don't know that
Dont ever act like you don't, don't know that

You'd be restless hoping i feel it still
Dont no where you head is
Dont think i ever will
We fight then we get right
Then we do it all again
You think that i would get tired
You just dont no when

I know im gonna lie
I know your paraniod
You think i found someone
Thats gonna feel deviod
I think its kinda strange
Cus i still feel the same

Girl your the one thats changed

If you ever have to doubt me baby,
You dont no a thing about me baby
Even though sometimes you drive me crazy
And thats a fact

No matter what it is were going through
I'm always gonna feel what i feel for you
Dont ever act like you don't, don't know that
Dont ever act like you don't, don't know that

Girl my hearts in it
Im just dont forget
If i dont say please forgive it
Right now if you want to know
I am dedicated i know were gonna make it
You know that i dont want it to end
So dont you ever say it again

If you ever have to doubt me baby,
You dont no a thing about me baby
Even though sometimes you drive me crazy
And thats a fact (thats a fact now)

No matter what it is were going through(going through)
I'm always gonna feel what i feel for you (feel for you
yeah)
Dont ever act like you don't, don't know that (like you
don't no that)
Dont ever act like you don't, don't know that

If you ever have to doubt me baby,
You dont no a thing about me baby
Even though sometimes you drive me crazy
And thats a fact

No matter what it is were going through (going
through)
I'm always gonna feel what i feel for you (feel for you)
Dont ever act like you don't, don't know that (don't no
