What she like?

Yea

All night

Straight ghetto

Keep the party going cause we're on a roll
We gon' be up all night living young
Girl you got goods like a corner store
She just wanna stay up and have fun
Gonna watch the night turn to day
We don't care what they gon' say
Tell 'em go ahead pick it up
I can't get enough, we in here forever
She just wanna stay up and have fun

That girl look cute but she really don't play
Bad girl at night, good girl in the day
Yea, we gon' have a good time this evening
Tell 'er go ahead mama, you can have your way
That girl look cute but she really don't play
Bad girl at night, good girl in the day
Yea, we gon' have a good time this evening
Tell 'er go ahead mama, you can have your way

Yea

We should let this moment last a long time
Yes sir we're here to rock and give it up
Girl I know you know I think you're so fine
I get that feeling every time we touch
Gonna watch the night turn to day
We don't care what they gon' say
Tell 'em go ahead pick it up
I can't get enough, we in here forever
She just wanna stay up and have fun

That girl look cute but she really don't play
Bad girl at night, good girl in the day
Yea, we gon' have a good time this evening
Tell 'er go ahead mama, you can have your way
That girl look cute but she really don't play
Bad girl at night, good girl in the day

Yea, we gon' have a good time this evening
Tell 'er go ahead mama, you can have your way

Keep the party going
We gon' be up all night living young

That girl look cute but she really don't play
Bad girl at night, good girl in the day
Yea, we gon' have a good time this evening
Tell 'er go ahead mama, you can have your way
That girl look cute but she really don't play
Bad girl at night, good girl in the day
Yea, we gon' have a good time this evening
Tell 'er go ahead mama, you can have your way
