Super ecstatic and manic
I know the beat don't lie
So dramatic, erratic
I think I'm losing my mind
Let's go fast and let's go slow
Take it high, take it low
We own it, we own it

It's so contagious, outrageous
The kind that money can't buy
Changed my status to greatest
And then my BB done died
Keep it moving, don't you stop
From the bottom to the top
We own it

You got me feeling alive
Like a fire burning through the night
I want this feeling for the rest of my life
You keep my heartrock rockin'
Keep my heartrock rockin' rockin'

You got me feeling alive
Like a fire burning through the night
I want this feeling for the rest of my life
You keep my heartrock rockin'
Keep my heartrock rockin' rockin'

My pulse is racing like crazy
I feel a pound in my chest
I don't think I can take it
If you keep moving like this
There's a place I wanna go
Baby we could be alone for a moment
Let's own it

The city's ready and waiting
Let's go and hit it right now
Place is pumpin' and shakin'
It's about to get loud
Turn it up, it's going down

Like a bomb hits the ground
You know it

You got me feeling alive
Like a fire burning through the night
I want this feeling for the rest of my life
You keep my heartrock rockin'
Keep my heartrock rockin' rockin'

You got me feeling alive
Like a fire burning through the night
I want this feeling for the rest of my life
You keep my heartrock rockin'
Keep my heartrock rockin' rockin' (you keep my heart
rockin')

Tum ta rum ta ra ra ra tum tum ta rum
Ta ra ra ra tum tum ta rum
Ta ra ra ra tum tum tum tum,

You got me feeling alive
Like a fire burning through the night
I want this feeling for the rest of my life
You keep my heartrock rockin'
Keep my heartrock rockin' rockin'

You got me feeling alive
Like a fire burning through the night
I want this feeling for the rest of my life
You keep my heartrock rockin'
Keep my heartrock rockin' rockin'
