## "I Know What She Like"

Visit "[I Know What She Like](#)" on MotoLyrics.com

I know what she like  
I know what she like  
I know what she

I know what she like  
Movies on a late night  
My baby and me  
Always feels so right

I know what she like  
I know what she like, yeah  
I know what she like  
I know what she like, yeah

She's my queen  
Got the keys to my kingdom  
She can have it all  
Everything and then some

I know what she like  
I know what she like  
I know what she like  
I know what she like

It's not about the Louis or the Prada  
She don't even bother  
She can have it all but doesn't need it

She likes the flowers and the love notes  
Simple and beautiful  
She ain't 'bout material, believe it

She likes a home cooked meal after her 9-5  
Kick back, relax, take her for a drive  
We can cruise to the city, me and my baby  
I know what she like

I know what she like  
Movies on a late night  
My baby and me  
Always feels so right

I know what she like  
I know what she like, yeah  
I know what she like  
I know what she like, yeah

She's my queen  
Got the keys to my kingdom  
She can have it all  
Everything and then some

I know what she like  
I know what she like  
I know what she like  
I know what she like

It's not about the shine of the diamonds  
She don't even buy them  
She can have it all but doesn't need it

She likes a kiss in the morning  
Call when she's lonely  
She ain't 'bout material, believe it

She likes a walk on the beach on a sunny day  
And a nice hot drink in a small cafe  
We stroll down the Broadway, me and my shorty  
I know what she like

I know what she like  
Movies on a late night  
My baby and me  
Always feels so right

I know what she like  
I know what she like, yeah  
I know what she like  
I know what she like, yeah

She's my queen  
Got the keys to my kingdom  
She can have it all  
Everything and then some

I know what she like  
I know what she like  
I know what she like  
I know what she like

If you want a guy  
That be treating you right  
That's gonna give you

Every little thing that you like  
Let me hear you say yeah, yeah  
Say yeah, yeah

And if you want somebody  
That'll be by your side  
Someone that'll give you  
That kiss goodnight  
Let me hear you say yeah, yeah  
Say yeah, yeah

I know what she like  
Movies on a late night  
My baby and me  
Always feels so right

I know what she like  
I know what she like, yeah  
I know what she like  
I know what she like, yeah

She's my queen  
Got the keys to my kingdom  
She can have it all  
Everything and then some

I know what she like  
I know what she like  
I know what she like  
I know what she like

I know what she like
