Boom then you  
Boom then you

Stop telling me not to think about her  
Stop telling me not to worry her  
Cause I can't you know that I can't

Stop telling me that you'll never be mine  
I don't wanna hear cause I know it's gonna happen in  
time  
She's gonna be mine

You know, you know that he don't deserve you baby  
I know, I know your not happy with him  
You know, you know, you can do much better baby  
Let go and let me breathe in

It's like your in between every heartbeat  
Nothings ever been the same since I met you  
It's like your in between every heartbeat  
It's goes boom then you, then boom then you  
All I wish is that you'd tell me you want me  
No-one else is gonna love you like I do  
It's like your in between every heartbeat  
It goes boom then you, then boom you

Boom then you  
Boom then you  
Boom then you

I've tired and I've tired not to think about her  
But the more I try, is more than it bruises my chest.  
And I don't wanna forget.

What if this don't turn out right?  
You know she's safe by his side.  
At least I've tried my best, don't wanna leave in regret.

You know, you know, that he don't deserve you baby.  
I know, I know you're not happy with him.  
You know, you know, you can do much better baby.  
Let go and let me breathe in.

It's like you're inbetween every heartbeat.  
Nothing's ever been the same since I met you.  
It's like you're inbetween every heartbeat.  
It goes boom then you, then boom then you.  
All I wish is that you'd tell me you want me.  
No- one else is gonna love you like I do.  
It's like you're inbetween every heartbeat,  
It goes boom then you, then boom then you.

Boom then you,  
Boom then you,  
Boom then you,

I'm tired of, I'm tired of, I'm tired of talking bout it.  
It's time I, it's time I, it's time I be about it.  
I'm not tryna, not tryna, not tryna leave without ya.  
Let go and let me breathe in.

It's like you're inbetween every heartbeat.  
Nothing's ever been the same since I met you.  
It's like you're inbetween every heartbeat.  
It goes boom then you, then boom then you.  
All I wish is that you'd tell me you want me.  
No- one else is gonna love you like I do.  
It's like you're inbetween every heartbeat,  
It goes boom then you, then boom then you.

Boom then you,  
Boom then you,  
Boom then you
