Houston  
We got a problem  
Said, I'm calling Houston  
We got a problem

Hey, baby out of space or a far off place  
She's in front of me, I'm standing still  
Feels like magic and she has it on me  
I'm frozen, almost ill

This love of another kind  
So out there, it blew my mind  
This love of another kind  
I can never find, never find it

She's got me in a trance  
The way that baby dance  
And I just wanna hold her body close

The look that's in her eyes  
It's got me mesmerized  
And where she's coming from  
Nobody knows

She's outta this world  
She's outta this world  
She's outta this world, world, world  
She's outta this world

Now she's taking me to a galaxy  
And I can't believe I'm touching her  
And she has me where there is no gravity  
And I'm floating up off this earth

This love of another kind  
So out there, it blew my mind  
This love of another kind  
I can never find, never find it

She's got me in a trance  
The way that baby dance  
And I just wanna hold her body close

The look that's in her eyes  
It's got me mesmerized  
And where she's coming from  
Nobody knows

She's outta this world  
She's outta this world  
She's outta this world, world, world  
She's outta this world
